# Research Training Course on Multilingual Lexical Resources and Tools

EVALUATION FORM

Which parts of the course were most directly relevant for your research?

Miloš Jakubíček – Exploring Corpora with Sketch Engine.
Gunn Inger Lyse– Translation-based WSD

From which parts have you learned the most new things?

Exploring Corpora with Sketch Engine
Cue-based Lexical Information Acquisition

How much of the exercises did you actually do and how much of the recommended reading did you actually read?

I did participate in all exercises
I read 50% of the recommended bibliography.

Was the information about the course and its organization sufficient?

Yes

What could have been done better? (continue on back if necessary)

—

# Research Training Course on Multilingual Lexical Resources and Tools

EVALUATION FORM

Which parts of the course were most directly relevant for your research?

Lexical Resources and Tools
Exploiting Corpora with Sketch Engine

From which parts have you learned the most new things?

Semantic Mirrors
Cue-based lexical information Acquisition

How much of the exercises did you actually do and how much of the recommended reading did you actually read?

100% exercises and ca. 50% of recommended lecture

Was the information about the course and its organization sufficient?

Yes

What could have been done better? (continue on back if necessary)

# Research Training Course on Multilingual Lexical Resources and Tools

EVALUATION FORM

Which parts of the course were most directly relevant for your research?

1 – Lexical Resources and Standards
2 – Exploiting Corpora with Sketch Engine
3 – Cce-based Lexical Info. acquisition,
4 – multilingual termbases and their relevance to ontologies

From which parts have you learned the most new things?

3 above,
2 above

How much of the exercises did you actually do and how much of the recommended reading did you actually read?

I did all of the exercises in class and read through the contents for the course except for the Data mining book which I plan to study later on.

Was the information about the course and its organization sufficient?

The information provided was sufficient.
Organization of the course was neat.

What could have been done better? (continue on back if necessary)

This has been one of the most interesting courses, (even the most) of the CLARA project so far.

In another course it would be good to have more time to read the material.

Thanks to Prof. DeSmedt for his excellent job for this CLARA course.

# Research Training Course on Multilingual Lexical Resources and Tools

EVALUATION FORM

Which parts of the course were most directly relevant for your research?

*Semantic mirror & lexical information acquisition*

From which parts have you learned the most new things?

*Semantic mirror*

How much of the exercises did you actually do and how much of the recommended reading did you actually read?

*having done most of the exercises and but read only 2 of most interested papers.*

Was the information about the course and its organization sufficient?

*Yes.*

What could have been done better? (continue on back if necessary)

*Everything is great in my opinion*

# Research Training Course on Multilingual Lexical Resources and Tools

EVALUATION FORM

Which parts of the course were most directly relevant for your research?

The automated acquisttion parts.

From which parts have you learned the most new things?

) Only attended the two last days,
The Weka introduction and exercises were useful.

How much of the exercises did you actually do and how much of the recommended reading did you actually read?

1 followed the exercises ~~wazia the courssen~~ given
directly in the lectures.

Was the information about the course and its organization sufficient?

superb.

What could have been done better? (continue on back if necessary)

It would be nice with a complete
list of participants w/mail inf., to
keep for later.

# Research Training Course on Multilingual Lexical Resources and Tools

EVALUATION FORM

Which parts of the course were most directly relevant for your research?

Not exactly relevant to my research. But, its always good & helps in broadening perspective.

From which parts have you learned the most new things?

1) Semantic Mirrors & Related Talks

2) Cue based Lexical Information Acquisition

How much of the exercises did you actually do and how much of the recommended reading did you actually read?

Some exercises from SketchEngine tutorial and Wewa sessions

Was the information about the course and its organization sufficient?

Yes.

What could have been done better? (continue on back if necessary)

There could have been lesser number of Coffee -breaks :-)

# Research Training Course on Multilingual Lexical Resources and Tools

EVALUATION FORM

Which parts of the course were most directly relevant for your research?

At this moment, I think the following presentations could be useful for me: Milos Jakubíček (sketch Engine: for creating corpora), and Núria Bel and Muntsa Padró (weka). Nevertheless, I need to explore more these tools.

From which parts have you learned the most new things?

All the information I have received in this course, ~~and a~~ was new for me. I think I will be able to apply one or more of the knowledge I have obtained here.

How much of the exercises did you actually do and how much of the recommended reading did you actually read?

Exercises: 80%.
Readings: 30%.

Was the information about the course and its organization sufficient?

It was. Everything was well organized.

What could have been done better? (continue on back if necessary)

# Research Training Course on Multilingual Lexical Resources and Tools

EVALUATION FORM

Which parts of the course were most directly relevant for your research?

- Exploiting corpora with Sketch Engine
- Cue-based lexical Information Acquisition

From which parts have you learned the most new things?

- Exploiting corpora with Sketch Engine
- Semantic Mirrors
- Translation - based WSD
- Usage of WEKA and hands-on exercises

How much of the exercises did you actually do and how much of the recommended reading did you actually read?
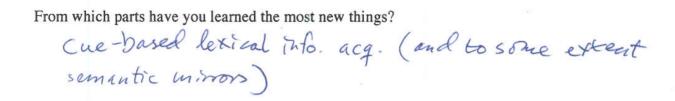

- I did / participated in all exercises
- I read before the course all recommended readings except for one book because of lack of time

Was the information about the course and its organization sufficient?

Yes

What could have been done better? (continue on back if necessary)

# Research Training Course on Multilingual Lexical Resources and Tools

EVALUATION FORM

Which parts of the course were most directly relevant for your research?

*Sketch Engine & Cue-based lexical information acquistion*

From which parts have you learned the most new things?

*Cue-based lexical info. acq. (and to some extent semantic mirrors)*

How much of the exercises did you actually do and how much of the recommended reading did you actually read?

*some of the sketch engine readings, 2/3 of the cue-based readings, sem. mirrors.*

Was the information about the course and its organization sufficient?

*Yes.*

What could have been done better? (continue on back if necessary)

*More practical exercises, perhaps?*
